<b>v)</b>	<b>Assessor</b>

**Purpose:** To provide commercial operators, industry organizations, national federations, government regulators and other interested parties worldwide with a common standard for whitewater professionals.

### **General:**

- maintain a log book recording each run, signed by the Trip Leader or Operations Manager of the company, as proof of experience. This is to be presented as proof of experience before an assessment;
- complete a familiarization run and know the evacuation routes and procedures on any new stretch of whitewater they intend to Guide or Trip Lead on. (Note that an exception to this requirement is made in the case of highly experienced guides running exploratory or infrequently run expedition-style trips where a familiarization run may be impractical.)

**Companies are responsible for:**

- checking river levels before trips and ensuring guides allocated to the trip are appropriately qualified and experienced.
